Delmarva Stargazers

Spring Star Party 2005

Stargaze XJ

Bill Ellis has his 10" LX200 set up waiting for the skies to clear on Friday. The Clear Sky Clock predicted 8 PM and it was right on the money.

Stargaze XJ

Tony tried out his new losmandy mount, the tripod is hand made by Tony.

Dave Groski's home made H-Alpha scope

Stargaze XJ

Dave's H-Alpha scope gave us many wonderful views of plumes and flares coming off the Sun like this picture I captured from the scope.

OK, I didn't really capture this, all I got was an orange ball. I used PaintShop Pro to produce a simulation of what we saw in Dave's scope. But I have to tell you, this really doesn't do it justice. The detail and movement you could see by adjusting the filters was nothing short of spectacular.

Stargaze '14

The Delmarva Stargazers would like to thank the following people:

Organizer: Lyle Jones – Also chief cook and bottle washer

Registrar: Joe Cain Jr. Joe was busy the whole event as clear skies brought lots of walk ins to the party.

Soup Makers: Jerry Truitt & Lyle Jones

Facilities: Keith Lohmeyer Keith handled many of the logistics involved with a large crowd and the facilities.
